Thank you, Marcia. I really appreciate your responsiveness to these requests.

I'll let you know if need you to try posting the ASI data.

I have resaved the shapefiles with coordinate information, I will post them to Sharefile. The coordinates of the 2008_EMBM are in GCS_North_American_1983. Most of the other data are in NAD83 State Plane NJ (ft).

I am posting bathy from 2010, 2011 (full river), and 2012. Sometimes I have trouble sharing these files, so hopefully it will work the first time. Let me know if you want additional bathy data. I am also posting the grain size delineations developed by ASI from the side scan sonar data. If you want the data, it is about 1.3 GB, I can try Sharefile but it might be easier to put it on a jump drive. Early on there were CDs of the ASI deliverable with all the data and reports and a nifty executable, I don't know if you still have that.

Please let me know if I have overlooked anything.

Marcia

One more set of questions....

Could you send the projection files, and confirm that the projection for the 2008_EMBM is correct? Here's the email I received:

I was able to load them all to arcgis. However, the files listed below do not have projection files, which is important. Also the file 2008_EMBM is in a different coordinate system than the files that do have a coordinate system. It would be good to know if this is correct.

- *Refusal*
- *20130508_CPG_Proposed_SSP2*
- *20130305_EPA_Proposed_SSP2*
- *2008_ENSR_Prob*
- *2007MPIProbingLocations*
- *20130513_Probing*

Thanks again,

Stephanie

Stephanie,

I have included a shapefile showing the boundaries of the proposed probing areas, as well as the Utility areas. You should be able to forward this for others to download.

Thanks,

Marcia
